node js	<div></div>
rest api	<div></div>
Express	<div></div>
mongo db	<div></div>
mongoose	<div></div>

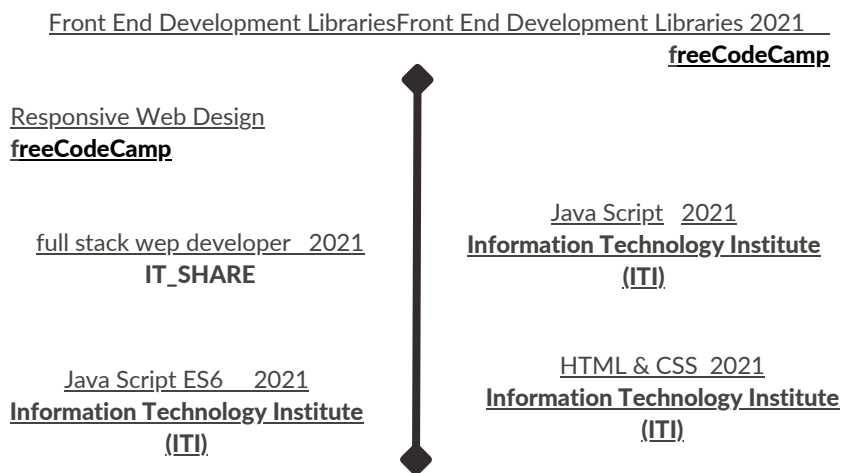

### LANGUAGES

Arapic	<div></div>
English	<div></div>

### ABOUT ME

I am a React developer with a passion for creating dynamic and responsive user interfaces. With a Bachelor of Science degree in Computer Science and experience developing multiple React-based web applications, I have a strong foundation in front-end development and a deep understanding of React and its ecosystem. I am familiar with modern front-end tools and libraries such as Redux, I am committed to delivering high-quality code that meets the needs of both users and stakeholders, and I enjoy collaborating with designers and back-end developers to create seamless user experiences. With strong problem-solving and analytical skills, as well as excellent communication and teamwork abilities

### CERTIFICATIONS
